

## Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### ALPHA PATRIMOINE - Monte Leone Special Situations, class A (LU1591418964)

a sub-fund of ALPHA PATRIMOINE FLAGSHIP FUND (SICAV SIF)

Management company : Alpha Patrimoine S.A.

## Objectives and investment policy

### Objectives

The objective is to generate superior and consistent absolute and risk-adjusted returns while limiting the sub-fund's correlation to equity markets, to outperform the S&P500 Index and event-driven indices.

### Investment policy

The sub-fund invests in equities and derivatives, with a geographical focus on US and Europe. The assets will be concentrated into 10 to 15 positions while the managers will limit the weighting of any particular industry group to a maximum of 25%. They will perform meticulous investment research at the transaction, company and industry level; while adjusting the portfolio balance between special situations and merger arbitrage.

The portfolio is managed on a discretionary basis without using a reference benchmark.

The currency of the share class is expressed in EUR.

The investor has the right to redeem his shares on demand. The dealing in shares is carried out on each week's last bank business day in Luxembourg. The attention of the investor is drawn to the fact that in exceptional circumstances, the possibility for the investor to request the redemption of his shares may be limited or suspended.

These shares are capitalisation shares. Income and capital gains are reinvested.

### Recommendation

This fund may not be appropriate for investors who plan to withdraw their money within 8 years.

### What does this synthetic indicator mean ?

- The shares of class I are classified in category 5 because the value of the share may be subject to potentially high variations and consequently the risk of loss and the opportunity of gain may be high.
- The risk category has been determined on the basis of historical and simulated data and may not be a reliable indication of the future risk profile. The risk and reward category shown does not necessarily remain unchanged and the categorisation of the fund may shift over time.
- The lowest category does not mean a risk-free investment.
- Repayment of the initial investment is not guaranteed.

### How can I get more information about the risks of the sub-fund?

For further information concerning the risks of the sub-fund, please consult the prospectus of the fund, which is available at the registered office of the Management Company and on [www.alpha-patrimoine.eu](http://www.alpha-patrimoine.eu).

### Which materially relevant risks are not adequately captured by the synthetic indicator ?

- Credit risk: the sub-fund may invest in Bonds which may face a deterioration of credit ratings. Such events would increase default risks of the concerned underlying bonds.
- Liquidity risk: the sub-fund invests in Equities which may be affected by a decrease of liquidity. These market conditions may adversely affect buying or selling prices of these securities.
- Management risk: since the sub-fund invests in different market segments or asset classes, there is a risk that the sub-fund is not invested in the best performing ones.
- Operational risk: given that various players are involved in the management and the administration of the fund, there are risks of failure or mistakes in the valuation of underlying assets or in the custody of securities.
- Risks linked to use of derivatives: given that the sub-fund uses forward contracts to hedge against currency risk, futures or option contracts to hedge against market risk, there is a risk that the counterparty does not meet its commitments.
- Risks linked to investments in alternative funds: hedge funds are often incorporated under offshore jurisdictions where the level of regulation is potentially low and subscription and/or redemptions policies can be restrictive. The investment strategies of those investment vehicles generally aim at reaching a low level of correlation with markets and usually imply the use of derivatives (options, futures, swaps, ...), leverage and short selling. Investments in hedge funds may negatively impact the sub-funds liquidity and lead to an increase in the volatility level of its Net Asset Value.

## Charges

| One-off charges taken before or after you invest   |   |
|--|---|
| Entry charge   | 3.00%   |
| Exit charge  | 1.00%   |
| This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out. |   |
| Charges taken from the fund over a year  |   |
| Ongoing charge   | 3,87%   |
| Charges taken under certain specific conditions  |   |
| Performance fee  | 20% of the increase of the net asset value per share multiplied by the number of shares outstanding on the day of the last NAV, subject to a High Water Mark (HWM) and revised up to 25% in case the NAV is 5% superior to HWM. |

The charges paid by an investor are used to cover the running costs of the fund, including the costs of marketing and distribution of shares. These charges reduce the potential increase in value of an investment in this fund. The entry and exit charges shown correspond to a maximum percentage which might be deducted from the investor's capital invested into the fund.

In some cases, the investor might pay less. The investor may contact his financial adviser or intermediary to be informed on the actual entry and exit charges. The conversion of part or all of the shares into shares of another sub-fund or another share class is free of charge. The ongoing charges were calculated on 15.12.2017 and relate to the annual charges. The ongoing charges may vary from year to year.

The figure of the ongoing charges excludes the performance fee.

For further information concerning charges, please consult the heading "Frais à charge du compartiment" of the fund's prospectus, which is available at the registered office of the Management Company and on [www.alpha-patrimoine.eu](http://www.alpha-patrimoine.eu). Additional information concerning the performance fee is also available in the prospectus.
